Installation Food Advisor

Equipment Replacement Process

Step Two: - Ensure Records are Accurate

- Accessing Dining Facility Equipment Records.
 - Serial Numbers
 - Accuracy
- Updating Records.
 - Other Equipment
 - Electrical / Mechanical Equipment
- Deleting and Transferring Equipment.
 - Turned-in
 - From one Building to another

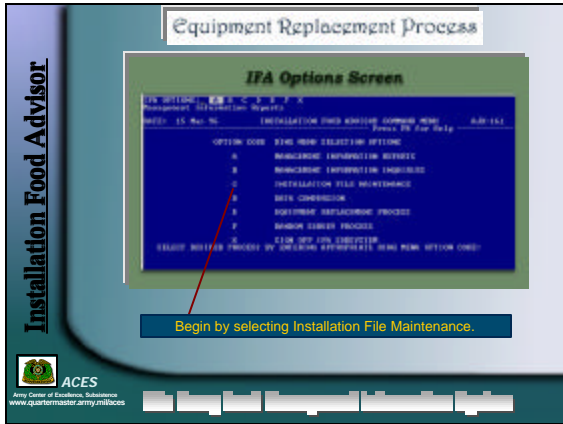

It is not necessary for Dining Facilities to "Delete" records when equipment is transferred.

[illegible][illegible]

The diagram consists of two main rectangular boxes connected by a large arrow pointing from left to right.

The first box on the left is titled "Equipment Replacement Process" in a stylized font. Below the title, it lists three numbered steps:

1. Determine Need
 - ✓ Per Facility on Installation
 - ✓ Used by Various Reports
2. Inventory Existing Equipment
 - ✓ Update Facility Equipment Inventories
 - ✓ Accurate Information
3. Verify Existing Records Access
 - ✓ Verifying through Equipment Inventory Process
 - ✓ Serial Number not needed
 - ✓ Do not Save

A large, light blue arrow points from this box towards the second box on the right.

The second box on the right is titled "Conclusion — Setting up Records for Budgeting". It contains a single bullet point:

- Accurate Design Specification and Equipment Records will ensure accurate Replacement and Budget Reports.

At the bottom left of the slide, there is a small logo for ACES (Army Center of Excellence, Substance) with the website address www.aces.army.mil.
